

DENT-136 – Restorative Assisting

Health and Human Services

Effective Term & Year: Fall 2022
Course Outline Review Date: 2024-04-01

Program Area: Health

Description:

Moisture control is often the responsibility of the Certified Dental Assistant. Skilled dental dam application provides for excellent isolation. This course also covers additional methods of moisture control, such as cotton roll management and dental materials. The curriculum of this course also reflects many restorative procedures performed in general practice: composite restorations, amalgam restorations and fixed and removable prosthodontic procedures.
