

BBA – Bachelor of Business Administration

Business

Effective Term & Year: Fall 2022

Program Outline Review Date: 2027-04-01

Program Area: Business Management

Description:

The Bachelor of Business Administration (Sustainable Business Practices) (BBA) is an innovative program designed to integrate the conceptual approaches and methodologies of a business administration degree program with specialized knowledge of sustainable business practices. The four-year program includes liberal arts and laboratory sciences in addition to specific business functions such as accounting or marketing and addresses the increasing need for organizations to commit to and demonstrate sustainability.

Students develop the capacity for independent intellectual work and prepare for the challenges of careers in accounting, marketing, financial services, hospitality, local governance, and other positions in a variety of organizations including corporations, small businesses, non-profits or local government. BBA graduates may also to continue their studies toward professional certifications and designations.

The program is designed to be flexible and accessible. Students may study full-time or part-time, in traditional classrooms or online formats, choose to focus with specific electives, and enter or exit the program at various points. Qualifying courses from other institutions may be used to meet up to approximately 75% of the upper level course requirements.

Program Information:

The four-year program includes foundational courses in many business functions, and then permits students to concentrate on one or more areas. Because the current Business Management diplomas ladder into the BBA, students will commonly select Accounting, Financial Services, Marketing or tailor a General Management diploma major to suit their particular interests. Some upper level courses will be taken through collaborating post-secondary

institutions, and may be completed in online or face-to-face delivery formats.

Because social, financial and environmental factors influence success in business, the program also includes breadth courses in Social Sciences and Humanities, Mathematics and Sciences. All candidates must complete a 9-credit Sustainability Project demonstrating their ability to synthesize aspects of sustainability.

Candidates may enter the program directly from high school graduation or after obtaining a Certificate or Diploma in Business, or after exploring several university transfer courses or certificates, such as College of the Rockies' Certificate in Environmental Studies.

Credentials Granted:

Bachelor of Business Administration (Sustainable Business Practices)

The baccalaureate degree is awarded to students completing 120 credits including foundational courses in business, liberal arts and sciences, upper level business specialization courses and a capstone project in sustainability.

Minimum Course Grade: A minimum grade of C

Program Average: A minimum grade point average of 4.0/10 (C+ average)

Progression Requirements:

Students wishing to complete the BBA in four years are required to take MGMT 310 in the fall of year three. It is the prerequisite course to MGMT 410 offered in the winter of year three. These courses must be completed prior to registering in the BBA capstone project – MGMT 470 in the fall, MGMT 480 in the winter and MGMT490 in the spring of year four.

It is anticipated that students will follow one of four progression models through the program:

1. First complete a BMGMT diploma from COTR or another institution then complete the additional degree requirements.
2. First complete a Certificate in Environmental Studies, an Associate Degree or similar year of Arts and Science courses.
3. Enter the degree directly and combine foundational business with arts and sciences courses in the first two years.
4. First complete an Adventure Tourism Business Operations or Tourism Management and Recreation Management diplomas then complete the additional degree requirements.

Delivery Methods: Blended (Hybrid), On-Campus (Face-to-Face), Online

Credits: 120

Grand Total Credits: 120

Flexible Assessment: Yes

In some cases students may be able to apply for recognition of prior learning outside the classroom. This flexible assessment process provides equivalent course credit. It is a rigorous process that may include external evaluation, worksite assessment, demonstration, standardized test, self-assessment, interview, products/portfolio, and challenge exam, or other measures as appropriate. Tuition fees apply. Contact an education advisor for more information.

Program Transfer Credit:

For information about block transfer agreements between programs in British Columbia, Alberta, and elsewhere, please visit <http://www.cotr.bc.ca/transfer>.

To minimize transfer issues, check with an academic advisor at the institution that will receive the transfer credits.

Academic Policies:

College of the Rockies policies related to courses can be found at <https://cotr.bc.ca/about-us/college-policies/> and include the following:

- Policy 2.4.3 Students with Documented Disabilities
 - Policy 2.4.4 Student Conduct (plagiarism, other cheating, behavioral misconduct)
 - Policy 2.5.8 Academic Performance
 - Policy 2.5.3 Grade Appeal
 - Policy 2.4.9 Student Concerns Re Faculty
-

Program Changes:

Information contained in this program outline is correct at the time of publication. Courses and course content may be revised from time to time based on changing educational, employment and marketing needs. The timetable may also be revised.
