

ECED1 – Early Childhood Education

Health and Human Services

Effective Term & Year: Fall 2026

Program Outline Review Date: 2031-03-01

Program Area: Child Youth and Family Studies

Description:

The Early Childhood Education Certificate and Diploma Program provides students the necessary skills and knowledge to work with young children and their families in diverse settings. Our program uses a play-based approach, with a focus on positive assets and strength-based perspectives. Practicums are designed to give students the opportunity to apply theory into their practice in early childhood settings. The Diploma program allows for specialization as either an Infant/Toddler Educator or a Special Needs Educator.

Areas of learning include lifespan development; building relationships with children and families; creating curriculum; guiding behaviours; health, safety and nutrition; theories, ethics and philosophies; interpersonal and professional communication; observing and recording; and inclusive and diverse practices.

Graduates are prepared for employment as child care professionals in group care and education settings with children from birth to age 12. Examples of settings include group care, pre-school, family child care, BC Strong Start programs, infant development, supported child development, Child Care Resource and Referral, Head Start, Community Action Program for Children, and literacy, behaviour and early intervention programs.

Certificate

The certificate is awarded upon successful completion of required courses listed in Year 1 of the program (first, second and third semesters).

Diploma

The Infant/Toddler Diploma is awarded upon successful completion of a certificate or equivalent and the required courses listed in Year 2 of the Infant/Toddler specialty (first, second and third semesters).

The Special Needs Diploma is awarded upon successful completion of a certificate or

equivalent and the required courses listed in Year 2 of the Special Needs specialty (first, second and third semesters).

Program Learning Outcomes:

By the end of the ECE Program, successful students will be able to:

- apply knowledge of child growth and development to early childhood education practice, encompassing key developmental domains such as social/emotional, physical, cognitive, and language development;
 - explain the influence of biological and environmental factors on child growth and development;
 - plan, implement, and evaluate inclusive programs that support children's holistic development and well-being in indoor and outdoor environments, integrating elements of the First Peoples' Principles of Learning and the BC Early Learning Framework Principles;
 - apply positive guiding strategies and techniques that support children's behaviour, foster self-esteem, and create environments that respect diversity and inclusion;
 - describe how current pedagogy has been shaped by the history, foundations, and philosophies of early childhood education over time;
 - integrate Indigenous Peoples' perspectives and ways of knowing, being, and doing into practice, recognizing the importance of land, language, and culture;
 - utilize observations to create, implement, and adapt activities, experiences, and environments;
 - apply communication skills to foster supportive relationships with children, families, coworkers, and community partners in ways that respect all aspects of diversity;
 - promote family involvement by advocating for children and families through ethical conduct and culturally informed policies and practices;
 - adapt approaches through self-reflection and feedback, understanding the importance of professional development and lifelong learning;
 - create and maintain a safe, healthy, and nurturing environment for children by implementing health and safety policies, applying preventative measures, and meeting nutritional needs; and
 - ensure compliance with child protection and licensing requirements.
