

MKTG – Business Management – Marketing Diploma

Business

Effective Term & Year: Fall 2023

Program Outline Review Date: 2028-04-01

Program Area: Business Management

Description:

The Business Management program prepares students for employment in accounting, marketing, financial services, hospitality, local governance and other management training positions in a variety of organizations including corporations, small businesses, non-profits and local government.

The diploma program introduces fundamental business principles and skills in the core functional areas of business. In the diploma program, students develop a foundation in business knowledge with a focus on particular business stream, such as accounting, financial management in aboriginal organizations, general management, tourism and recreation management, financial services or marketing.

College of the Rockies Certificate and Diploma graduates can directly enter the Bachelor of Business Administration degree program with full credit for their previous coursework. Or they can continue their education elsewhere, working towards university degrees and professional certifications and designations such as the CPA (Chartered Professional Accountant), CPHR (Chartered Professional in Human Resources), CPM (Certified Payroll Manager), and CFP (Certified Financial Planner).

For those who have already earned a degree, the Business Management program also offers two post-degree programs (a certificate and diploma) in sustainable business practices.

Program Information:

Note that students may apply to each of the following credentials directly. First-year students are encouraged to select a two-year diploma program. They can exit after one year of coursework with a certificate or continue after two years directly to the BBA degree program.

Please review the specific program webpage for more information or see an Education Advisor.

This diploma is awarded to students who successfully complete the two-year diploma curriculum in one of four streams: Accounting, General Management, Marketing, or Financial Services. These diplomas also fulfill the first two years of study towards the College of the Rockies Bachelor of Business Administration in Sustainable Business Practices.

Co-op Option

Students enrolled in these programs may be eligible to choose Co-op as an option. The Co-op option involves alternating full-time academic and work terms. For more information Co-op and Employment Services.

The Business Management program has been offered continuously by College of the Rockies since its establishment in 1975. Its design enables students to progress from a certificate to a diploma to a Bachelor of Business Administration degree.
